ABSTRACT SUBMISSION TEMPLATE

Theme: "Biotechnology and Frontier Sciences for the Betterment of Human Life"

INSTRUCTIONS FOR AUTHORS

- Abstract length: 250–300 words, excluding the title, author details, keywords and figure captions.
- Use clear scientific writing. Include the research context, objective, methods or approach, key results (with quantitative data where relevant), and conclusion or significance.
- Authors may include a relevant figure, image, graph or table if essential to understanding the findings. Keep it legible, label it clearly, provide a caption, and acknowledge the source or obtain permission where required.
- Use common units where applicable and define uncommon abbreviations at first use. Do not include unsupported claims or results that are not available.
- Complete this template and upload it in the file format requested on the conference submission page. If both DOCX and PDF are requested, ensure both versions are identical.

Abstract

[Write 250–300 words in one coherent paragraph, or use brief labelled subheadings if appropriate to your field. Suggested structure: Background/Objectives — introduce the problem and state the aim; Methods/Approach — summarise methods, experimental design, theory or computational approach; Results — report the main findings, including quantitative data where available; Conclusion/Significance — explain what the findings mean and why they matter.]

Optional Figure / Image / Graph / Table

[Insert a relevant figure, image, graph or table here if needed. Keep it within the page margins and ensure all labels, axes, legends and text are readable.]

[FIGURE / IMAGE / GRAPH / TABLE PLACEHOLDER]

Figure/Table caption: [Provide a concise caption and define symbols or abbreviations where necessary.]

Keywords

[Keyword 1]; [Keyword 2]; [Keyword 3]; [Keyword 4]; [Keyword 5]

Optional References

[Include only essential references if needed for your field or to credit a figure. Use a consistent citation style.]
